|            |           |

Additional Information: The text for GHS Hazard Statements shown above (if any) is given in Section 16.

# 4. First-aid Measures

# 4.1 Description of First Aid Measures

GENERAL NOTES: No Information AFTER INHALATION: Move to fresh air. AFTER SKIN CONTACT: Use a mild soap if available. Wash off immediately with soap and plenty of water. AFTER EYE CONTACT: Rinse thoroughly with plenty of water, also under the eyelids. Remove contact lenses. **AFTER INGESTION:** Gently wipe or rinse the inside of the mouth with water. Do NOT induce vomiting. Never give anything by mouth to an unconscious person.

#### Self protection of the first aider:

No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

# 4.2 Most important symptoms and effects, both acute and delayed

Do not ingest. May be harmful by inhalation, in contact with skin and if swallowed.

#### 4.3 Indication of any immediate medical attention and special treatment needed

No information available on clinical testing and medical monitoring. Specific toxicological information on substances, if available, can be found in section 11.

# 5. Fire-fighting Measures

# 5.1 Extinguishing Media:

Carbon Dioxide, Dry Chemical, Foam, Water Fog FOR SAFETY REASONS NOT TO BE USED: Alcohol, Alcohol based solutions, any other media not listed above.

#### 5.2 Special hazards arising from the substance or mixture No Information

#### 5.3 Advice for firefighters

In the event of fire, wear self-contained breathing apparatus. High volume water jet. Hazardous decomposition products formed under fire conditions. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. None.

# 6. Accidental Release Measures

# 6.1 Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation. Use personal protective equipment.

### 6.2 Environmental precautions

Do not allow material to contaminate ground water system. Prevent product from entering drains.

# 6.3 Methods and material for containment and cleaning up

Contain spillage, soak up with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and transfer to a container for disposal according to local / national regulations (see section 13).

# 6.4 Reference to other sections

Please refer to disposal requirements or country specific disposal requirements for this material. See Section 13 for further information.

# 7. Handling and Storage

# 7.1 Precautions for safe handling

**INSTRUCTIONS FOR SAFE HANDLING:** Use only in area provided with appropriate exhaust ventilation. Wear personal protective equipment.

**PROTECTION AND HYGIENE MEASURES:** Wash hands before breaks and at the end of workday. When using, do not eat, drink or smoke.

# 7.2 Conditions for safe storage, including any incompatibilities

CONDITIONS TO AVOID: No Information

**STORAGE CONDITIONS:** Do not freeze. Keep containers tightly closed in a dry, cool and well-ventilated place.

# 7.3 Specific end use(s)

No specific advice for end use available.

# 8. Exposure Controls/Personal Protection

# 8.1 Control parameters

Ingredients with Occupational Exposure Limits (EU)

| ame               | CAS-No.        | LTEL ppm | STEL ppm | STEL mg/m3 |  |

FURTHER INFORMATION: Refer to the regulatory exposure limits for the workforce enforced in each country.

# 8.2 Exposure controls

# Personal Protection

RESPIRATORY PROTECTION: In case of insufficient ventilation wear suitable respiratory equipment. No personal respiratory protective equipment normally required. EYE PROTECTION: Safety glasses. HAND PROTECTION: Protective gloves. Long sleeved clothing. Remove and wash contaminated clothing before re-use. OTHER PROTECTIVE EQUIPMENT: No Information ENGINEERING CONTROLS: Avoid contact with skin, eyes and clothing. Ensure adequate ventilation, especially in confined areas.

# 9. Physical and Chemical Properties

# 9.1 Information on basic physical and chemical properties

| Appearance:                         | Viscous Liquid coloured |
|-------------------------------------|-------------------------|
| Physical State                      | Liquid                  |
| Odor                                | Odourless               |
| Odor threshold                      | Not determined          |
| рН                                  | Not determined          |
| Melting point / freezing point (°C) | Not determined          |
| Boiling point/range (°C)            | 200 - 300               |
| Flash Point, (°C)                   | N/A                     |
| Evaporation rate                    | Not determined          |
| Flammability (solid, gas)           | Not determined          |
|                                     |                         |

# 10. Stability and Reactivity

# 10.1 Reactivity

9.2

No reactivity hazards known under normal storage and use conditions.

- **10.2 Chemical stability** Stable under normal conditions.
- **10.3 Possibility of hazardous reactions** Hazardous polymerisation does not occur.
- 10.4 Conditions to avoid No Information

## 10.5 Incompatible materials No Information

10.6 Hazardous decomposition products No Information

# 11. Toxicological Information

# Information on toxicological effects 11.1 Acute Toxicity: Oral LD50: No information available. Inhalation LC50: No information available. No information available. Irritation: No information available. Corrosivity: Sensitization: No information available. No information available. Repeated dose toxicity: Carcinogenicity: This product contains one or more carcinogenic substances. See hazard classification and precautionary statements in Section 2 for further information. **Mutagenicity:** No information available. No information available. Toxicity for reproduction: No information available. STOT-single exposure: No information available. STOT-repeated exposure: No information available. Aspiration hazard:

If no information is available above under Acute Toxicity then the acute effects of this product have not been tested. Data on individual components are tabulated below:

| CAS-No.    | Chemical Name    | Oral LD50                  | Dermal LD50 | Vapor LC50 | Gas LC50 | Dust/Mist LC50 |
|------------|------------------|----------------------------|-------------|------------|----------|----------------|
| 13463-67-7 | titanium dioxide | 10000 mg/m3,<br>oral (rat) |             |            | 0.000    | 0.000          |
| 1592-23-0  | calcium stearate | >10000                     |             |            | 0.000    | 0.000          |

# Additional Information:

This product may contain Titanium Dioxide, which is listed by IARC as possibly carcinogenic to humans (Group 2B). This listing is based on inadequate evidence of carcinogenicity in humans and sufficient evidence in experimental animals. This classification is relevant when exposed to titanium dioxide in dust or powder form only, including cured product that is subject to sanding, grinding, cutting, or other surface preparation activities.

| 12. Ecological Information |                |  |

# 15. Regulatory Information

15.1

| National Regulations:                |               |
|--------------------------------------|---------------|
| Denmark Product Registration Number: | Not available |
|                                      |               |

Safety, health and environmental regulations/legislation for the substance or mixture:

| Danish MAL Code:                    | Not available |
|-------------------------------------|---------------|
| Danish MAL Code - Mixture:          | Not available |
| Sweden Product Registration Number: | Not available |
| Norway Product Registration Number: | Not available |
| WGK Class:                          | Not available |

# 15.2 Chemical Safety Assessment:

No Chemical Safety Assessment has been carried out for this substance/mixture by the supplier.

# 16. Other Information

Text for GHS Hazard Statements shown in Section 3 describing each ingredient:

Causes serious eye irritation. Suspected of causing cancer.

The information on this sheet corresponds to our present knowledge. It is not a specification and it does not guarantee specific properties. The information is intended to provide general guidance as to health and safety based upon our knowledge of the handling, storage, and use of the product. It is not applicable to unusual or non-standard uses of the product or where instructions and recommendations are not followed.

# SAFETY DATA SHEET

# ALPHAGUARD BIO BASE COAT – PART B

info.tremcoroofing.com/south-africa

# Safety Data Sheet

# prepared to UN GHS Revision 3

# 1. Identification of the Substance/Mixture and the Company/Undertaking

| 1.1 | Product Identifier  | T-605950CAT   | Revision Date:   | 17/08/2021 |
|-----|---|---|------------------|------------|
|     | Product Name:   | ALPHAGUARD BIO BASE COAT<br>- PART B  | Supersedes Date: | New SDS    |
| 1.2 | Relevant identified uses of the substance or mixture and uses advised against | Hardener for 2 components coatings -  | Industrial use.  |            |
| 1.3 | Details of the supplier of the safety   | data sheet  |                  |            |
|     | Importer:   | Importer  |                  |            |
|     | Manufacturer:   | StonCor Africa (Pty.) Ltd.<br>8 Cresset Road<br>Midrand Industrial Park, Chloorkop<br>P.O. Box 2205<br>2001, Johannesburg<br>South Africa<br>Regulatory / Technical Information:<br>+27 11 254 5500 |                  |            |

# 2. Hazard Identification

# 2.1 Classification of the substance or mixture

Acute Toxicity, Inhalation, category 4 Carcinogenicity, category 2 Eye Irritation, category 2A Respiratory Sensitizer, category 1 STOT, repeated exposure, category 2 STOT, single exposure, category 3, RTI Skin Irritation, category 2 Skin Sensitizer, category 1

# 2.2 Label elements

# Symbol(s) of Product

# Signal Word

Danger

# Named Chemicals on Label

4,4'-methylenediphenyl diisocyanate, Diphenylmethane-2,4'-diisocyanate, isocyanic acid, polymethylenepolyphenylene ester

# HAZARD STATEMENTS

| Skin Irritation actorson()             | H315         | Causes skin irritation.   |
|--|--------------|---|
| Skin Irritation, category 2            | H317         |   |
| Skin Sensitizer, category 1            |              | May cause an allergic skin reaction.  |
| Eye Irritation, category 2A            | H319         | Causes serious eye irritation.  |
| Acute Toxicity, Inhalation, category 4 | H332         | Harmful if inhaled.   |
| Respiratory Sensitizer, category 1     | H334         | May cause allergy or asthma symptoms or breathing<br>difficulties if inhaled.   |
| STOT, single exposure, category 3, RTI | H335         | May cause respiratory irritation.   |
| Carcinogenicity, category 2            | H351         | Suspected of causing cancer.  |
| STOT, repeated exposure, category 2    | H373         | May cause damage to organs through prolonged or repeated exposure.  |
| PRECAUTION PHRASES                     |              |   |
|  | P260         | Do not breathe dust/fume/gas/mist/vapours/spray.  |
|  | P280         | Wear protective gloves/protective clothing/eye protection/<br>face protection.  |
|  | P284         | Wear respiratory protection.  |
|  | P285         | In case of inadequate ventilation wear respiratory protection.  |
|  | P302+352     | IF ON SKIN: Wash with plenty of soap and water.   |
|  | P304+340     | IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.  |
|  | P305+351+338 | IF IN EYES: Rinse cautiously with water for several minutes.<br>Remove contact lenses, if present and easy to do so.<br>Continue rinsing. |
|  | P308+313     | IF exposed or concerned: Get medical advice/attention.  |
|  | P314         | Get medical advice/attention if you feel unwell.  |
|  | P333+313     | If skin irritation or rash occurs: Get medical advice/attention.  |
|  | P341         | If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing.                           |
|  | P342+311     | If experiencing respiratory symptoms: Call a POISON<br>CENTER or doctor/physician.  |

# 2.3 Other hazards

No Information

# Results of PBT and vPvB assessment:

The product does not meet the criteria for PBT/VPvB in accordance with Annex XIII.

# 3. Composition/Information On Ingredients

3.2 Mixtures

# Date Printed: 30/09/2022

Additional Information:

The text for GHS Hazard Statements shown above (if any) is given in Section 16.

# 4. First-aid Measures

# 4.1 Description of First Aid Measures

GENERAL NOTES: When symptoms persist or in all cases of doubt seek medical advice.

**AFTER INHALATION:** Move to fresh air. Consult a physician after significant exposure.

AFTER SKIN CONTACT: Use a mild soap if available. Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes.

AFTER EYE CONTACT: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses.

AFTER INGESTION: Do NOT induce vomiting. Never give anything by mouth to an unconscious person.

# Self protection of the first aider:

No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

# 4.2 Most important symptoms and effects, both acute and delayed

Harmful by inhalation, in contact with skin and if swallowed. Irritating to eyes and respiratory system.

# 4.3 Indication of any immediate medical attention and special treatment needed

No information available on clinical testing and medical monitoring. Specific toxicological information on substances, if available, can be found in section 11.

# 5. Fire-fighting Measures

# 5.1 Extinguishing Media:

Carbon Dioxide, Dry Chemical, Foam FOR SAFETY REASONS NOT TO BE USED: Alcohol, Alcohol based solutions, any other media not listed above.

# 5.2 Special hazards arising from the substance or mixture

Heating or fire can release toxic gas.

# 5.3 Advice for firefighters

In the event of fire, wear self-contained breathing apparatus. ABC powder. High volume water jet. Hazardous decomposition products formed under fire conditions. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. Water reactive.

# 6. Accidental Release Measures

# 6.1 Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation. Use personal protective equipment.

#### 6.2 Environmental precautions

Do not allow material to contaminate ground water system. Prevent product from entering drains. Keep the container open.

## 6.3 Methods and material for containment and cleaning up

Prevent further leakage or spillage if safe to do so. Contain spillage, soak up with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and transfer to a container for disposal according to local / national regulations (see section 13).

#### 6.4 Reference to other sections

Please refer to disposal requirements or country specific disposal requirements for this material. See Section 13 for further information.

# 7. Handling and Storage

#### 7.1 Precautions for safe handling

**INSTRUCTIONS FOR SAFE HANDLING:** Use only in area provided with appropriate exhaust ventilation. Provide sufficient air exchange and/or exhaust in work rooms. Wear personal protective equipment. Do not breathe vapours or spray mist. Persons with a history of skin sensitisation problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this preparation is being used.

**PROTECTION AND HYGIENE MEASURES:** Wash hands before breaks and at the end of workday. When using, do not eat, drink or smoke.

# 7.2 Conditions for safe storage, including any incompatibilities

**CONDITIONS TO AVOID:** Avoid dust accumulation in enclosed space. Keep from any possible contact with water. **STORAGE CONDITIONS:** Store in original container. Keep container tightly closed in a dry and well-ventilated place. Keep locked up or in an area accessible only to qualified or authorised persons.

# 7.3 Specific end use(s)

No specific advice for end use available.

# 8. Exposure Controls/Personal Protection

# 8.1 Control parameters

#### Ingredients with Occupational Exposure Limits

FURTHER INFORMATION: Refer to the regulatory exposure limits for the workforce enforced in each country.

# 8.2 Exposure controls

# **Personal Protection**

**RESPIRATORY PROTECTION:** When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. No personal respiratory protective equipment normally required. Respirator with a vapor filter.

**EYE PROTECTION:** Ensure that eyewash stations and safety showers are close to the workstation location. Safety goggles. Tightly fitting safety goggles.

HAND PROTECTION: Latex glovesImpervious gloves. Long sleeved clothing. Remove and wash contaminated clothing before re-use.

# **OTHER PROTECTIVE EQUIPMENT:** No Information

**ENGINEERING CONTROLS:** Avoid contact with skin, eyes and clothing. Ensure adequate ventilation, especially in confined areas.

# 10. Stability and Reactivity

10.1 Reactivity

No reactivity hazards known under normal storage and use conditions.

#### 10.2 Chemical stability

Container can be pressurized by carbon dioxide due to reaction with humid air and/or water. Stable under normal conditions.

## 10.3 Possibility of hazardous reactions

Hazardous polymerisation does not occur.

#### 10.4 Conditions to avoid

Avoid dust accumulation in enclosed space. Keep from any possible contact with water.

# 10.5 Incompatible materials

Reacts violently in contact with acids, amines, driers, polymerisation accelerators and easily oxidized materials. Contact with water or moist air liberates irritating gas.

#### 10.6 Hazardous decomposition products

Carbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen (NOx), dense black smoke.

# 13. Disposal Considerations

**13.1 WASTE TREATMENT METHODS:** If recycling is not practicable, dispose of in compliance with local regulations. Empty containers should be taken to an approved waste handling site for recycling or disposal.

# 14. Transport Information

| 14.1 | UN number   | Not applicable  |
|------|---|---|
| 14.2 | UN proper shipping name   | Not regulated for transport according to U.S. DOT, ADR/RID, IMDG, and IATA regulations. |
|      | Technical name  | Not applicable  |
| 14.3 | Transport hazard class(es)  | Not applicable  |
|      | Subsidiary shipping hazard  | Not applicable  |
| 14.4 | Packing group   | Not applicable  |
| 14.5 | Environmental hazards   | Not applicable  |
| 14.6 | Special precautions for user  | Not applicable  |
|      | EmS-No.:  | Not applicable  |
| 14.7 | Transport in bulk according to Annex II of<br>MARPOL 73/78 and the IBC code | Not applicable  |

# 15. Regulatory Information

<sup>15.1</sup> Safety, health and environmental regulations/legislation for the substance or mixture:

# National Regulations:Not availableDenmark Product Registration Number:Not availableDanish MAL Code:Not availableDanish MAL Code - Mixture:Not availableSweden Product Registration Number:Not availableNorway Product Registration Number:Not availableWGK Class:Not available

### 15.2 Chemical Safety Assessment:

No Chemical Safety Assessment has been carried out for this substance/mixture by the supplier.

# 16. Other Information

Text for GHS Hazard Statements shown in Section 3 describing each ingredient:

|      | · · ·  |
|------|--|
| H315 | Causes skin irritation.  |
| H317 | May cause an allergic skin reaction.                                       |
| H319 | Causes serious eye irritation.   |
| H332 | Harmful if inhaled.  |
| H334 | May cause allergy or asthma symptoms or breathing difficulties if inhaled. |
| H335 | May cause respiratory irritation.  |
| H351 | Suspected of causing cancer.   |
| H373 | May cause damage to organs through prolonged or repeated exposure.         |
|      |  |

#### **Reasons for revision**

This Safety Data Sheet (SDS) has been revised to meet updated national hazard communication standards which have adopted the provisions of the UN GHS system. There have been both formatting and content changes based on the GHS classification (if applicable), Please review each section of the SDS for specific changes. This Safety Data Sheet (SDS) has been revised to meet the new EU CLP requirements. There have been both formatting and content changes based on the CLP classification (if applicable), please review each section of the SDS for specific changes.

# Additional Information: The text for GHS Hazard Statements shown above (if any) is given in Section 16.

# 4. First-aid Measures

#### 4.1 Description of First Aid Measures

GENERAL NOTES: No Information

AFTER INHALATION: Move to fresh air.

AFTER SKIN CONTACT: Use a mild soap if available. Wash off immediately with soap and plenty of water. AFTER EYE CONTACT: Rinse thoroughly with plenty of water, also under the eyelids. Remove contact lenses. AFTER INGESTION: Gently wipe or rinse the inside of the mouth with water. Do NOT induce vomiting. Never give anything by mouth to an unconscious person.

## Self protection of the first aider:

No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

#### 4.2 Most important symptoms and effects, both acute and delayed

Do not ingest. May be harmful by inhalation, in contact with skin and if swallowed.

#### 4.3 Indication of any immediate medical attention and special treatment needed

No information available on clinical testing and medical monitoring. Specific toxicological information on substances, if available, can be found in section 11.

# 5. Fire-fighting Measures

# 5.1 Extinguishing Media:

Carbon Dioxide, Dry Chemical, Foam, Water Fog FOR SAFETY REASONS NOT TO BE USED: Alcohol, Alcohol based solutions, any other media not listed above.

# 5.2 Special hazards arising from the substance or mixture No Information

# 5.3 Advice for firefighters

In the event of fire, wear self-contained breathing apparatus. High volume water jet. Hazardous decomposition products formed under fire conditions. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. None.

# 6. Accidental Release Measures

# 6.1 Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation. Use personal protective equipment.

# 6.2 Environmental precautions

Do not allow material to contaminate ground water system. Prevent product from entering drains.

#### 6.3 Methods and material for containment and cleaning up

Contain spillage, soak up with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and transfer to a container for disposal according to local / national regulations (see section 13).

#### 6.4 Reference to other sections

Please refer to disposal requirements or country specific disposal requirements for this material. See Section 13 for further information.

# 7. Handling and Storage

# 7.1 Precautions for safe handling

**INSTRUCTIONS FOR SAFE HANDLING:** Use only in area provided with appropriate exhaust ventilation. Wear personal protective equipment.

PROTECTION AND HYGIENE MEASURES: Wash hands before breaks and at the end of workday. When using, do not eat,

drink or smoke.

# 7.2 Conditions for safe storage, including any incompatibilities

# CONDITIONS TO AVOID: No Information STORAGE CONDITIONS: Do not freeze. Keep containers tightly closed in a dry, cool and well-ventilated place.

## 7.3 Specific end use(s)

No specific advice for end use available.

# 8. Exposure Controls/Personal Protection

# 8.1 Control parameters

# Ingredients with Occupational Exposure Limits

(EU)

FURTHER INFORMATION: Refer to the regulatory exposure limits for the workforce enforced in each country.

# 8.2 Exposure controls

#### Personal Protection

RESPIRATORY PROTECTION: In case of insufficient ventilation wear suitable respiratory equipment. No personal respiratory protective equipment normally required. EYE PROTECTION: Safety glasses. HAND PROTECTION: Protective gloves. Long sleeved clothing. Remove and wash contaminated clothing before re-use. OTHER PROTECTIVE EQUIPMENT: No Information ENGINEERING CONTROLS: Avoid contact with skin, eyes and clothing. Ensure adequate ventilation, especially in confined areas.

# 9. Physical and Chemical Properties

9.1 Information on basic physical and chemical properties Appearance:

Vliscous Liquid, Coloured

|   | Physical State  | Liquid           |
|---|---|------------------|
|   | Odor  | Odourless        |
|   | Odor threshold  | Not determined   |
|   | pH  | Not determined   |
|   | Melting point / freezing point (°C)                     | Not determined   |
|   | Boiling point/range (°C)                                | 200 - 300        |
|   | Flash Point, (°C)                                       | N/A              |
|   | Evaporation rate  | Not determined   |
|   | Flammability (solid, gas)                               | Not determined   |
|   | Upper/lower flammability or explosive limits            | Not determined   |
|   | Vapour Pressure   | Not determined   |
|   | Vapour density  | Heavier than air |
|   | Relative density  | 1.498            |
|   | Solubility in / Miscibility with water                  | Immiscible       |
|   | Partition coefficient: n-octanol/water                  | Not determined   |
|   | Auto-ignition temperature (°C)                          | Not determined   |
|   | Decomposition temperature (°C)                          | Not determined   |
|   | Viscosity   | Not determined   |
|   | Explosive properties                                    | Not determined   |
|   | Oxidising properties                                    | Not determined   |
| 2 | Other information                                       |                  |
|   | VOC Content g/l:  | 0                |
|   | Calculated grams of VOC per liter of coating product as |                  |
|   | Specific Gravity (g/cm3)                                | 1.498            |

# 10. Stability and Reactivity

10.1 Reactivity No reactivity hazards known under normal storage and use conditions.

# 10.2 Chemical stability

9.2

Stable under normal conditions.

- **10.3 Possibility of hazardous reactions** Hazardous polymerisation does not occur.
- 10.4 Conditions to avoid No Information
- 10.5 Incompatible materials No Information
- 10.6 Hazardous decomposition products No Information

# 11. Toxicological Information

# Information on toxicological effects 11.1 Acute Toxicity: Oral LD50: No information available. Inhalation LC50: No information available. No information available. Irritation: No information available. Corrosivity: Sensitization: No information available. No information available. Repeated dose toxicity: Carcinogenicity: This product contains one or more carcinogenic substances. See hazard classification and precautionary statements in Section 2 for further information. **Mutagenicity:** No information available. No information available. Toxicity for reproduction: No information available. STOT-single exposure: No information available. STOT-repeated exposure: No information available. Aspiration hazard:

If no information is available above under Acute Toxicity then the acute effects of this product have not been tested. Data on individual components are tabulated below:

| CAS-No.    | Chemical Name    | Oral LD50                  | Dermal LD50 | Vapor LC50 | Gas LC50 | Dust/Mist LC50 |
|------------|------------------|----------------------------|-------------|------------|----------|----------------|
| 13463-67-7 | titanium dioxide | 10000 mg/m3,<br>oral (rat) |             |            | 0.000    | 0.000          |
| 1592-23-0  | calcium stearate | >10000                     |             |            | 0.000    | 0.000          |

# Additional Information:

This product may contain Titanium Dioxide, which is listed by IARC as possibly carcinogenic to humans (Group 2B). This listing is based on inadequate evidence of carcinogenicity in humans and sufficient evidence in experimental animals. This classification is relevant when exposed to titanium dioxide in dust or powder form only, including cured product that is subject to sanding, grinding, cutting, or other surface preparation activities.

# 15. Regulatory Information

<sup>15.1</sup> Safety, health and environmental regulations/legislation for the substance or mixture:

# National Regulations:Not availableDenmark Product Registration Number:Not availableDanish MAL Code:Not availableDanish MAL Code - Mixture:Not availableSweden Product Registration Number:Not availableNorway Product Registration Number:Not availableWGK Class:Not available

### 15.2 Chemical Safety Assessment:

No Chemical Safety Assessment has been carried out for this substance/mixture by the supplier.

# 16. Other Information

Text for GHS Hazard Statements shown in Section 3 describing each ingredient:

| H312 | Harmful in contact with skin.                         |
|------|---|
|      |   |
| H318 | Causes serious eye damage.                            |
| H319 | Causes serious eye irritation.                        |
| H332 | Harmful if inhaled.                                   |
| H351 | Suspected of causing cancer.                          |
| H400 | Very toxic to aquatic life.                           |
| H410 | Very toxic to aquatic life with long lasting effects. |
|      |   |

## **Reasons for revision**

No Information

List of References:

This Safety Data Sheet was compiled with data and information from the following sources:

Additional Information:

The text for GHS Hazard Statements shown above (if any) is given in Section 16.

# 4. First-aid Measures

# 4.1 Description of First Aid Measures

GENERAL NOTES: When symptoms persist or in all cases of doubt seek medical advice.

AFTER INHALATION: Move to fresh air. Consult a physician after significant exposure.

AFTER SKIN CONTACT: Use a mild soap if available. Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes.

AFTER EYE CONTACT: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses.

AFTER INGESTION: Do NOT induce vomiting. Never give anything by mouth to an unconscious person.

### Self protection of the first aider:

No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

#### 4.2 Most important symptoms and effects, both acute and delayed

Harmful by inhalation, in contact with skin and if swallowed. Irritating to eyes and respiratory system.

#### 4.3 Indication of any immediate medical attention and special treatment needed

No information available on clinical testing and medical monitoring. Specific toxicological information on substances, if available, can be found in section 11.

# 5. Fire-fighting Measures

## 5.1 Extinguishing Media:

Carbon Dioxide, Dry Chemical, Foam

FOR SAFETY REASONS NOT TO BE USED: Alcohol, Alcohol based solutions, any other media not listed above.

#### 5.2 Special hazards arising from the substance or mixture

Heating or fire can release toxic gas.

#### 5.3 Advice for firefighters

In the event of fire, wear self-contained breathing apparatus. ABC powder. High volume water jet. Hazardous decomposition products formed under fire conditions. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. Water reactive.

# 6. Accidental Release Measures

### 6.1 Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation. Use personal protective equipment.

## 6.2 Environmental precautions

Do not allow material to contaminate ground water system. Prevent product from entering drains. Keep the container open.

#### 6.3 Methods and material for containment and cleaning up

Prevent further leakage or spillage if safe to do so. Contain spillage, soak up with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and transfer to a container for disposal according to local / national regulations (see section 13).

# 6.4 Reference to other sections

Please refer to disposal requirements or country specific disposal requirements for this material. See Section 13 for further information.

# 7. Handling and Storage

# 7.1 Precautions for safe handling

**INSTRUCTIONS FOR SAFE HANDLING:** Use only in area provided with appropriate exhaust ventilation. Provide sufficient air exchange and/or exhaust in work rooms. Wear personal protective equipment. Do not breathe vapours or spray mist. Persons with a history of skin sensitisation problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this preparation is being used.

**PROTECTION AND HYGIENE MEASURES:** Wash hands before breaks and at the end of workday. When using, do not eat, drink or smoke.

## 7.2 Conditions for safe storage, including any incompatibilities

**CONDITIONS TO AVOID:** Avoid dust accumulation in enclosed space. Keep from any possible contact with water. **STORAGE CONDITIONS:** Store in original container. Keep container tightly closed in a dry and well-ventilated place. Keep locked up or in an area accessible only to qualified or authorised persons.

# 7.3 Specific end use(s)

No specific advice for end use available.

# 8. Exposure Controls/Personal Protection

# 8.1 Control parameters

Ingredients with Occupational Exposure Limits (EU)

| <u>Name</u>        | CAS-No.    | LTEL ppm | STEL ppm | STEL mg/m3 | LTEL mg/m3 |
|--------------------|------------|----------|----------|------------|------------|
| homopolymer of hdi | 28182-81-2 |          |          |            |            |
| Name               | CAS-No.    | OEL Note |          |            |            |
| homopolymer of hdi | 28182-81-2 |          |          |            |            |

FURTHER INFORMATION: Refer to the regulatory exposure limits for the workforce enforced in each country.

#### 8.2 Exposure controls

# Personal Protection

**RESPIRATORY PROTECTION:** When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. No personal respiratory protective equipment normally required. Respirator with a vapor filter. **EYE PROTECTION:** Ensure that eyewash stations and safety showers are close to the workstation location. Safety goggles. Tightly fitting safety goggles.

HAND PROTECTION: Latex glovesImpervious gloves. Long sleeved clothing. Remove and wash contaminated clothing before re-use.

### OTHER PROTECTIVE EQUIPMENT: No Information

**ENGINEERING CONTROLS:** Avoid contact with skin, eyes and clothing. Ensure adequate ventilation, especially in confined areas.

# 9. Physical and Chemical Properties

| 9.1 | Information on basic physical and chemical properties Appearance: | Clear, light yellow to yellow |
|-----|---|-------------------------------|
|     | Physical State  | Liquid                        |
|     | Odor  | Almost Odourless              |
|     | Odor threshold  | Not determined                |
|     | рН  | Not determined                |
|     | Melting point / freezing point (°C)                               | Not determined                |
|     | Boiling point/range (°C)  | N.D N.D.                      |
|     | Flash Point, (°C)   | 174                           |
|     | Evaporation rate  | Not determined                |
|     | Flammability (solid, gas)   | Not determined                |
|     | Upper/lower flammability or explosive limits                      | Not determined                |
|     | Vapour Pressure   | Not determined                |
|     | Vapour density  | Not determined                |
|     | Relative density  | 1.14                          |
|     | Solubility in / Miscibility with water                            | Insoluble - React slowly      |
|     | Partition coefficient: n-octanol/water                            | Not determined                |

|     | Auto-ignition temperature (°C)                         | Not determined |
|-----|--|----------------|
|     | Decomposition temperature (°C)                         | Not determined |
|     | Viscosity  | Not determined |
|     | Explosive properties                                   | Not determined |
|     | Oxidising properties                                   | Not determined |
| 9.2 | Other information                                      |                |
|     | VOC Content g/I:                                       | 0              |
|     | Calculated grams of VOC per liter of coating product a | s applied.     |
|     | Specific Gravity (g/cm3)                               | 1.140          |

# 10. Stability and Reactivity

# 10.1 Reactivity

No reactivity hazards known under normal storage and use conditions.

#### 10.2 Chemical stability

Container can be pressurized by carbon dioxide due to reaction with humid air and/or water. Stable under normal conditions.

#### 10.3 Possibility of hazardous reactions

Hazardous polymerisation does not occur.

#### 10.4 Conditions to avoid

Avoid dust accumulation in enclosed space. Keep from any possible contact with water.

#### 10.5 Incompatible materials

Reacts violently in contact with acids, amines, driers, polymerisation accelerators and easily oxidized materials. Contact with water or moist air liberates irritating gas.

#### 10.6 Hazardous decomposition products

Carbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen (NOx), dense black smoke.

# 11. Toxicological Information

# 11.1 Information on toxicological effects

| Acute Toxicity:            |                           |
|----------------------------|---------------------------|
| Oral LD50:                 | No information available. |
| Inhalation LC50:           | No information available. |
| Irritation:                | No information available. |
| Corrosivity:               | No information available. |
|                            |                           |
| Sensitization:             | No information available. |
| Repeated dose toxicity:    | No information available. |
| Carcinogenicity:           | No information available. |
| Mutagenicity:              | No information available. |
| Toxicity for reproduction: | No information available. |
| STOT-single exposure:      | No information available. |
| STOT-repeated exposure:    | No information available. |
| Aspiration hazard:         | No information available. |

If no information is available above under Acute Toxicity then the acute effects of this product have not been tested. Data on individual components are tabulated below:

| CAS-No.    | Chemical Name      | Oral LD50                | Dermal LD50 | Vapor LC50                            | Gas LC50 | Dust/Mist LC50 |
|------------|--------------------|--------------------------|-------------|---------------------------------------|----------|----------------|

| 14.2 | UN proper shipping name   | Not regulated for transport according to U.S. DOT, ADR/RID, IMDG, and IATA regulations. |
|      | Technical name  | Not applicable  |
| 14.3 | Transport hazard class(es)  | Not applicable  |
|      | Subsidiary shipping hazard  | Not applicable  |
| 14.4 | Packing group   | Not applicable  |
| 14.5 | Environmental hazards   | Not applicable  |
| 14.6 | Special precautions for user  | Not applicable  |
|      | EmS-No.:  | Not applicable  |
| 14.7 | Transport in bulk according to Annex II of<br>MARPOL 73/78 and the IBC code | Not applicable  |

# 15. Regulatory Information

# <sup>15.1</sup> Safety, health and environmental regulations/legislation for the substance or mixture:

| Denmark Product Registration Number: | Not available |
|--------------------------------------|---------------|
| Danish MAL Code:                     | Not available |
| Danish MAL Code - Mixture:           | Not available |
| Sweden Product Registration Number:  | Not available |
| Norway Product Registration Number:  | Not available |
| WGK Class:                           | Not available |

# 15.2 Chemical Safety Assessment:

No Chemical Safety Assessment has been carried out for this substance/mixture by the supplier.

# 16. Other Information

#### Text for GHS Hazard Statements shown in Section 3 describing each ingredient:

| H317 | May cause an allergic skin reaction. |
|------|--------------------------------------|
| H332 | Harmful if inhaled.                  |
| H335 | May cause respiratory irritation.    |

#### **Reasons for revision**

This Safety Data Sheet (SDS) has been revised to meet updated national hazard communication standards which have adopted the provisions of the UN GHS system. There have been both formatting and content changes based on the GHS classification (if applicable), Please review each section of the SDS for specific changes. This Safety Data Sheet (SDS) has been revised to meet the new EU CLP requirements. There have been both formatting and content changes based on the CLP classification (if applicable), please review each section of the SDS for specific changes.

# 4. First-aid Measures

# 4.1 Description of First Aid Measures

GENERAL NOTES: When symptoms persist or in all cases of doubt seek medical advice.

AFTER INHALATION: Move to fresh air. Consult a physician after significant exposure.

**AFTER SKIN CONTACT:** Use a mild soap if available. Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. If skin irritation persists, call a physician.

AFTER EYE CONTACT: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses.

**AFTER INGESTION:** Gently wipe or rinse the inside of the mouth with water. Give small amounts of water to drink. Do NOT induce vomiting. Never give anything by mouth to an unconscious person.

#### Self protection of the first aider:

No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

# 4.2 Most important symptoms and effects, both acute and delayed

No Information

# 4.3 Indication of any immediate medical attention and special treatment needed

No information available on clinical testing and medical monitoring. Specific toxicological information on substances, if available, can be found in section 11.

# 5. Fire-fighting Measures

# 5.1 Extinguishing Media:

Carbon Dioxide, Dry Chemical, Foam, Water Fog

FOR SAFETY REASONS NOT TO BE USED: Alcohol, Alcohol based solutions, any other media not listed above.

# 5.2 Special hazards arising from the substance or mixture

No Information

# 5.3 Advice for firefighters

Flash back possible over considerable distance. In the event of fire, wear self-contained breathing apparatus. Do not use a solid water stream as it may scatter and spread fire. Hazardous decomposition products formed under fire conditions. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

# 6. Accidental Release Measures

# 6.1 Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation. Use personal protective equipment. Remove all sources of ignition.

# 6.2 Environmental precautions

Do not allow material to contaminate ground water system. Prevent product from entering drains.

#### 6.3 Methods and material for containment and cleaning up

Prevent further leakage or spillage if safe to do so. Contain spillage, soak up with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and transfer to a container for disposal according to local / national regulations (see section 13).

#### 6.4 Reference to other sections

Please refer to disposal requirements or country specific disposal requirements for this material. See Section 13 for further information.

# 7. Handling and Storage

# 7.1 Precautions for safe handling

**INSTRUCTIONS FOR SAFE HANDLING:** Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours). Vapours may form explosive mixtures with air. Prevent the creation of flammable or explosive concentrations of vapour in air and avoid vapour concentration higher than the occupational exposure limits. Electrical equipment should be protected to the appropriate standard. Preparation may charge electrostatically: always use earthing leads when transferring from one container to another. Use only in area provided with appropriate exhaust ventilation. To avoid ignition of vapours by static electricity discharge, all metal parts of the equipment must be grounded. Wear personal protective equipment. Do not breathe vapours or spray mist. Use only explosion-proof equipment. Keep away from sources of ignition - No smoking.

**PROTECTION AND HYGIENE MEASURES:** Wash hands before breaks and at the end of workday. When using, do not eat, drink or smoke.

#### 7.2 Conditions for safe storage, including any incompatibilities

# CONDITIONS TO AVOID: Direct sources of heat.

**STORAGE CONDITIONS:** Store in original container. Keep locked up or in an area accessible only to qualified or authorised persons. Store in a dry, well ventilated place away from sources of heat, ignition and direct sunlight.

#### 7.3 Specific end use(s)

No specific advice for end use available.

# 8. Exposure Controls/Personal Protection

#### 8.1 Control parameters

#### Ingredients with Occupational Exposure Limits

FURTHER INFORMATION: Refer to the regulatory exposure limits for the workforce enforced in each country.

#### 8.2 Exposure controls

**Personal Protection** 

**RESPIRATORY PROTECTION:** Respirator with a vapor filter.

EYE PROTECTION: Tightly fitting safety goggles.

**HAND PROTECTION:** Impervious gloves. Take note of the information given by the producer concerning permeability and break through times, and of special workplace conditions (mechanical strain, duration of contact). Long sleeved clothing. Remove and wash contaminated clothing before re-use.

**OTHER PROTECTIVE EQUIPMENT:** No Information

**ENGINEERING CONTROLS:** Avoid contact with skin, eyes and clothing. Ensure adequate ventilation, especially in confined areas.

# 9. Physical and Chemical Properties

|     |   |                            |  |  |

#### Not determined

 9.2
 Other information

 VOC Content g/l:
 433.063

 Calculated grams of VOC per liter of coating product as applied.

 Specific Gravity (g/cm3)
 1.020

# 10. Stability and Reactivity

#### 10.1 Reactivity

No reactivity hazards known under normal storage and use conditions.

# 10.2 Chemical stability

Stable under recommended storage conditions. Risk of ignition.

#### **10.3 Possibility of hazardous reactions** Hazardous polymerisation does not occur.

# 10.4 Conditions to avoid

Direct sources of heat.

#### **10.5** Incompatible materials Strong oxidizing agents.

# 10.6 Hazardous decomposition products

Carbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen (NOx), dense black smoke.

# 11. Toxicological Information

#### 11.1 Information on toxicological effects

| Acute Toxicity:            |                           |
|----------------------------|---------------------------|
| Oral LD50:                 | No information available. |
| Inhalation LC50:           | No information available. |
| Irritation:                | No information available. |
| Corrosivity:               | No information available. |
| Sensitization:             | No information available. |
| Repeated dose toxicity:    | No information available. |
| Carcinogenicity:           | No information available. |
| Mutagenicity:              | No information available. |
| Toxicity for reproduction: | No information available. |
| STOT-single exposure:      | No information available. |
| STOT-repeated exposure:    | No information available. |
| Aspiration hazard:         | No information available. |

If no information is available above under Acute Toxicity then the acute effects of this product have not been tested. Data on individual components are tabulated below:

| CAS-No.    | Chemical Name                              | Oral LD50                 | Dermal LD50 | Vapor LC50 | Gas LC50 | Dust/Mist LC50 |

# Additional Information:

This product may contain Quartz (silicon dioxide), which is listed by IARC as a known carcinogenic to humans (Group 1). This classification is relevant when exposed to Quartz (silicon dioxide) in dust or powder form only, including cured product that is subject to sanding, grinding, cutting, or other surface preparation activities.

# 12. Ecological Information

# Disposal Considerations

**13.1 WASTE TREATMENT METHODS:** Do not burn, or use a cutting torch on, the empty drum. If recycling is not practicable, dispose of in compliance with local regulations. Empty containers should be taken to an approved waste handling site for recycling or disposal.

# 15.2 Chemical Safety Assessment:

No Chemical Safety Assessment has been carried out for this substance/mixture by the supplier.

# 16. Other Information

# Text for GHS Hazard Statements shown in Section 3 describing each ingredient:

| H226 | Flammable liquid and vapour.                     |
|------|--|
| H261 | In contact with water releases flammable gas.    |
| H304 | May be fatal if swallowed and enters airways.    |
| H340 | May cause genetic defects.                       |
| H350 | May cause cancer.                                |
| H370 | Causes damage to organs.                         |
| H411 | Toxic to aquatic life with long lasting effects. |

# Reasons for revision

No Information

Additional Information: The text for GHS Hazard Statements shown above (if any) is given in Section 16.

# 4. First-aid Measures

#### 4.1 Description of First Aid Measures

GENERAL NOTES: When symptoms persist or in all cases of doubt seek medical advice.

AFTER INHALATION: Move to fresh air. Consult a physician after significant exposure.

**AFTER SKIN CONTACT:** Use a mild soap if available. Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. If skin irritation persists, call a physician.

AFTER EYE CONTACT: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses.

**AFTER INGESTION:** Gently wipe or rinse the inside of the mouth with water. Give small amounts of water to drink. Do NOT induce vomiting. Never give anything by mouth to an unconscious person.

#### Self protection of the first aider:

No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

#### 4.2 Most important symptoms and effects, both acute and delayed

No Information

# 4.3 Indication of any immediate medical attention and special treatment needed

No information available on clinical testing and medical monitoring. Specific toxicological information on substances, if available, can be found in section 11.

# 5. Fire-fighting Measures

# 5.1 Extinguishing Media:

Carbon Dioxide, Dry Chemical, Foam, Water Fog FOR SAFETY REASONS NOT TO BE USED: Alcohol, Alcohol based solutions, any other media not listed above.

5.2 Special hazards arising from the substance or mixture No Information

# 5.3 Advice for firefighters

Flash back possible over considerable distance. In the event of fire, wear self-contained breathing apparatus. Do not use a solid water stream as it may scatter and spread fire. Hazardous decomposition products formed under fire conditions. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

# 6. Accidental Release Measures

# 6.1 Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation. Use personal protective equipment. Remove all sources of ignition.

#### 6.2 Environmental precautions

Do not allow material to contaminate ground water system. Prevent product from entering drains.

#### 6.3 Methods and material for containment and cleaning up

Prevent further leakage or spillage if safe to do so. Contain spillage, soak up with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and transfer to a container for disposal according to local / national regulations (see section 13).

# 6.4 Reference to other sections

Please refer to disposal requirements or country specific disposal requirements for this material. See Section 13 for further information.

# 7. Handling and Storage

# 7.1 Precautions for safe handling

**INSTRUCTIONS FOR SAFE HANDLING:** Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours). Vapours may form explosive mixtures with air. Prevent the creation of flammable or explosive concentrations of vapour in air and avoid vapour concentration higher than the occupational exposure limits. Electrical equipment should be protected to the appropriate standard. Preparation may charge electrostatically: always use earthing leads when transferring from one container to another. Use only in area provided with appropriate exhaust ventilation. To avoid ignition of vapours by static electricity discharge, all metal parts of the equipment must be grounded. Wear personal protective equipment. Do not breathe vapours or spray mist. Use only explosion-proof equipment. Keep away from sources of ignition - No smoking.

**PROTECTION AND HYGIENE MEASURES:** Wash hands before breaks and at the end of workday. When using, do not eat, drink or smoke.

#### 7.2 Conditions for safe storage, including any incompatibilities

#### CONDITIONS TO AVOID: Direct sources of heat.

**STORAGE CONDITIONS:** Store in original container. Keep locked up or in an area accessible only to qualified or authorised persons. Store in a dry, well ventilated place away from sources of heat, ignition and direct sunlight.

#### 7.3 Specific end use(s)

No specific advice for end use available.

# 8. Exposure Controls/Personal Protection

# 8.1 Control parameters

#### Ingredients with Occupational Exposure Limits

FURTHER INFORMATION: Refer to the regulatory exposure limits for the workforce enforced in each country.

#### 8.2 Exposure controls

#### **Personal Protection**

**RESPIRATORY PROTECTION:** Respirator with a vapor filter.

EYE PROTECTION: Tightly fitting safety goggles.

**HAND PROTECTION:** Impervious gloves. Take note of the information given by the producer concerning permeability and break through times, and of special workplace conditions (mechanical strain, duration of contact). Long sleeved clothing. Remove and wash contaminated clothing before re-use.

#### **OTHER PROTECTIVE EQUIPMENT:** No Information

**ENGINEERING CONTROLS:** Avoid contact with skin, eyes and clothing. Ensure adequate ventilation, especially in confined areas.

# 10. Stability and Reactivity

# 10.1 Reactivity

9.2

No reactivity hazards known under normal storage and use conditions.

# 10.2 Chemical stability

Stable under recommended storage conditions. Risk of ignition.

# 10.3 Possibility of hazardous reactions

Hazardous polymerisation does not occur.

# 10.4 Conditions to avoid

Direct sources of heat.

# 10.5 Incompatible materials

Strong oxidizing agents.

# 10.6 Hazardous decomposition products

Carbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen (NOx), dense black smoke.

# 11. Toxicological Information

# 11.1 Information on toxicological effects

| Acute Toxicity:            |                           |
|----------------------------|---------------------------|
| Oral LD50:                 | No information            |
| Inhalation LC50:           | No information            |
| Irritation:                | No information available. |
| Corrosivity:               | No information available. |
|                            |                           |
| Sensitization:             | No information available. |
| Repeated dose toxicity:    | No information available. |
| Carcinogenicity:           | No information available. |
| Mutagenicity:              | No information available. |
| Toxicity for reproduction: | No information available. |
| STOT-single exposure:      | No information available. |
| STOT-repeated exposure:    | No information available. |
| Aspiration hazard:         | No information available. |

If no information is available above under Acute Toxicity then the acute effects of this product have not been tested. Data on individual components are tabulated below:

| CAS-No.    | Chemical Name                               | Oral LD50                 | Dermal LD50 | Vapor LC50                              | Gas LC50 | Dust/Mist LC50 |

# Additional Information:

This product may contain Quartz (silicon dioxide), which is listed by IARC as a known carcinogenic to humans (Group 1). This classification is relevant when exposed to Quartz (silicon dioxide) in dust or powder form only, including cured product that is subject to sanding, grinding, cutting, or other surface preparation activities.

# 12. Ecological Information

| 12.1 Toxicity:                                     |                         |                             |                                   |
|--|-------------------------|-----------------------------|-----------------------------------|
| EC50 48hr (Daphnia):                               | No information          |                             |                                   |

# 13. Disposal Considerations

. . .

**13.1 WASTE TREATMENT METHODS:** Do not burn, or use a cutting torch on, the empty drum. If recycling is not practicable, dispose of in compliance with local regulations. Empty containers should be taken to an approved waste handling site for recycling or disposal.

| 14.  | Transport Information   |                |
|------|---|----------------|
| 14.1 | UN number   | UN 1263        |
| 14.2 | UN proper shipping name   | Paint          |
|      | Technical name  | Not applicable |

# 15. Regulatory Information

# <sup>15.1</sup> Safety, health and environmental regulations/legislation for the substance or mixture:

| National | Regulations: |
|----------|--------------|
|----------|--------------|

| Denmark Product Registration Number: | Not available |
|--------------------------------------|---------------|
| Danish MAL Code:                     | Not available |
| Danish MAL Code - Mixture:           | Not available |
| Sweden Product Registration Number:  | Not available |
| Norway Product Registration Number:  | Not available |
| WGK Class:                           | Not available |

# 15.2 Chemical Safety Assessment:

No Chemical Safety Assessment has been carried out for this substance/mixture by the supplier.

# 16. Other Information

# Text for GHS Hazard Statements shown in Section 3 describing each ingredient:

|      | 0  |
|------|--|
| H225 | Highly flammable liquid and vapour.              |
| H226 | Flammable liquid and vapour.                     |
| H261 | In contact with water releases flammable gas.    |
| H304 | May be fatal if swallowed and enters airways.    |
| H319 | Causes serious eye irritation.                   |
| H340 | May cause genetic defects.                       |
| H350 | May cause cancer.                                |
| H370 | Causes damage to organs.                         |
| H411 | Toxic to aquatic life with long lasting effects. |
|      |  |

#### Hazard Symbol:

Version: 1.0 Revision Date: 10/06/2015

| Signal Word:                                  | Danger  |
|---|---|
| Hazard Statement:                             | May cause allergy or asthma symptoms or breathing difficulties if inhaled.<br>May cause an allergic skin reaction.<br>May cause cancer.<br>Toxic to aquatic life.   |
| Precautionary<br>Statement:<br>Prevention:    | Avoid breathing dust/fume/gas/mist/vapors/spray. [In case of inadequate   |
|   | ventilation] wear respiratory protection. Contaminated work clothing must<br>not be allowed out of the workplace. Wear protective gloves/protective<br>clothing/eye protection/face protection. Obtain special instructions before<br>use. Do not handle until all safety precautions have been read and<br>understood. Use personal protective equipment as required.  |
| Response:                                     | If inhaled: If breathing is difficult, remove person to fresh air and keep comfortable for breathing. If experiencing respiratory symptoms: Call a POISON CENTER/doctor. IF ON SKIN: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. If exposed or concerned: Get medical advice/attention. Specific treatment (see this label). Wash contaminated clothing before reuse. |
| Storage:                                      | Store locked up.  |
| Disposal:                                     | Dispose of contents/container to an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal.  |
| nazards which do not<br>n GHS classification: | None.   |

# 3. Composition/information on ingredients

#### **Mixtures**

Other result

| Chemical Identity                           | CAS number | Content in percent (%)* |
|---|------------|-------------------------|
| Calcium carbonate                           | 471-34-1   | 15 - 40%                |
| Polyvinyl chloride                          | 9002-86-2  | 7 - 13%                 |
| Calcium Carbonate<br>(Limestone)            | 1317-65-3  | 3 - 7%                  |
| Xylene                                      | 1330-20-7  | 1 - 5%                  |
| Calcium oxide                               | 1305-78-8  | 1 - 5%                  |
| Titanium dioxide                            | 13463-67-7 | 1 - 5%                  |
| Ethylbenzene                                | 100-41-4   | 0.5 - 1.5%              |
| Isophorone Diisocyanate                     | 4098-71-9  | 0.5 - 1.5%              |
| Hydrotreated heavy<br>naphthenic distillate | 64742-52-5 | 0.1 - 1%                |

| Dibutyl tin dilaurate                       | 77-58-7    | 0.1 - 1%                |

\* All concentrations are percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

# 4. First-aid measures

Version: 1.0 Revision Date: 10/06/2015

| Ingestion:  | Call a POISON CENTER/doctor//if you feel unwell. Rinse mouth.  |  |
|---|--|--|
| Inhalation:   | Call a physician or poison control center immediately. If breathing stops, provide artificial respiration. Move to fresh air. If breathing is difficult, give oxygen.  |  |
| Skin Contact:   | If skin irritation occurs: Get medical advice/attention. Destroy or thoroughly clean contaminated shoes. Immediately remove contaminated clothing and shoes and wash skin with soap and plenty of water. If skin irritation or an allergic skin reaction develops, get medical attention.  |  |
| Eye contact:  | Any material that contacts the eye should be washed out immediately with water. If easy to do, remove contact lenses. If eye irritation persists: Get medical advice/attention.  |  |
| Most important symptoms/effect  | s, acute and delayed   |  |
| Symptoms:   | May cause skin and eye irritation.   |  |
| Indication of immediate medical a   | ttention and special treatment needed  |  |
| Treatment:  | Symptoms may be delayed.   |  |
| 5. Fire-fighting measures   |  |  |
| General Fire Hazards:   | No unusual fire or explosion hazards noted.  |  |
|   |  |  |
| Suitable (and unsuitable) ex  | ktinguishing media   |  |

| Methods and material for<br>containment and cleaning<br>up:         | Collect spillage in containers, seal securely and deliver for disposal according to local regulations.   |
|---|--|
| Notification Procedures:  | In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.  |
| Environmental Precautions:  | Do not contaminate water sources or sewer. Prevent further leakage or spillage if safe to do so. Avoid release to the environment.   |
| 7. Handling and storage   |  |
| Precautions for safe handling:                                      | Ventilate well, avoid breathing vapors. Use approved respirator if air contamination is above accepted level. Use mechanical ventilation in case of handling which causes formation of dust. Do not handle until all safety precautions have been read and understood. Obtain special instructions before use. Use personal protective equipment as required. Do not breathe dust/fume/gas/mist/vapors/spray. Avoid contact with eyes, skin, and clothing. Wash hands thoroughly after handling. |
| Conditions for safe storage,<br>including any<br>incompatibilities: | Store locked up.   |

# Biological Limit Values

| Chemical Identity  | Exposure Limit Values          | Source              |
|--|--------------------------------|---------------------|
| Xylene (Methylhippuric<br>acids: Sampling time:<br>End of shift.)                                      | 1.5 g/g (Creatinine in urine)  | ACGIH BEL (03 2013) |
| Ethylbenzene (Sum of<br>mandelic acid and<br>phenylglyoxylic acid:<br>Sampling time: End of<br>shift.) | 0.15 g/g (Creatinine in urine) | ACGIH BEL (02 2014) |

#### Appropriate Engineering Controls

Mechanical ventilation or local exhaust ventilation may be required. Observe good industrial hygiene practices. Observe occupational exposure limits and minimize the risk of inhalation of dust.

#### Individual protection measures, such as personal protective equipment

| General information:                | Good general ventilation (typically 10 air changes per hour) should be used.<br>Ventilation rates should be matched to conditions. Supplementary local<br>exhaust ventilation, closed systems, or respiratory and eye protection may<br>be needed in special circumstances, such as poorly ventilated spaces,<br>heating, evaporation of liquids from large surfaces, spraying of mists,<br>mechanical generation of dusts, drying of solids, etc.  |
|-------------------------------------|---|
| Eye/face protection:                | Wear safety glasses with side shields (or goggles).   |
| Skin Protection<br>Hand Protection: | Use suitable protective gloves if risk of skin contact.   |
| Other:                              | Wear suitable protective clothing. Wear chemical-resistant gloves,<br>footwear, and protective clothing appropriate for the risk of exposure.<br>Contact health and safety professional or manufacturer for specific<br>information.  |
| Respiratory Protection:             | If engineering controls do not maintain airborne concentrations below<br>recommended exposure limits (where applicable) or to an acceptable level<br>(in countries where exposure limits have not been established), an<br>approved respirator must be worn. Air-purifying respirator with an<br>appropriate, government approved (where applicable), air-purifying filter,<br>cartridge or canister. Contact health and safety professional or<br>manufacturer for specific information. |
| Hygiene measures:                   | Observe good industrial hygiene practices. Wash hands before breaks and immediately after handling the product. Contaminated work clothing should not be allowed out of the workplace. Avoid contact with skin.   |

# 9. Physical and chemical properties

| Appearance                                     |  |

| Auto-ignition temperature:               | No data available.           |
| Decomposition temperature:               | No data available.           |
| Viscosity:                               | No data available.           |

# 10. Stability and reactivity

| Reactivity:                            | No data available.  |
|--|---|
| Chemical Stability:                    | Material is stable under normal conditions.   |
| Possibility of hazardous<br>reactions: | No data available.  |
| Conditions to avoid:                   | Avoid heat or contamination.  |
| Incompatible Materials:                | Alcohols. Amines. Strong acids. Avoid contact with oxidizing agents (e.g. nitric acid, peroxides and chromates). Strong bases. Water, moisture. |
| Hazardous Decomposition<br>Products:   | Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapors.   |

#### 11. Toxicological information

#### Information on likely routes of exposure

| Ingestion:    | May be ingested by accident. Ingestion may cause irritation and malaise.                               |
|---------------|--|
| Inhalation:   | In high concentrations, vapors, fumes or mists may irritate nose, throat and mucus membranes.          |
| Skin Contact: | May be harmful in contact with skin. Causes mild skin irritation. May cause an allergic skin reaction. |
| Eye contact:  | Eye contact is possible and should be avoided.   |

#### Information on toxicological effects

#### Acute toxicity (list all possible routes of exposure)

# SAFETY DATA SHEET

#### 1. Identification

Material name: SOLARGARD SEAM SEALER 850ML TUBE 12/CS Material: 1511R333

#### Recommended use and restriction on use

Recommended use: Sealant Restrictions on use: Not known.

#### Manufacturer/Importer/Supplier/Distributor Information

Tremco U.S. Roofing 3735 Green Road Beachwood OH 44122 US

Contact person: Telephone: Emergency telephone number: EH&S Department 216-292-5000 1-800-424-9300 (US); 1-613-996-6666 (Canada)

#### 2. Hazard(s) identification

#### Hazard Classification

#### Health Hazards

| Respiratory sensitizer | Category 1  |
|------------------------|-------------|
| Skin sensitizer        | Category 1  |
| Carcinogenicity        | Category 1A |

#### **Unknown toxicity - Health**

| Acute toxicity, oral                     | 55.79 % |
|--|---------|
| Acute toxicity, dermal                   | 63.63 % |
| Acute toxicity, inhalation, vapor        | 98.18 % |
| Acute toxicity, inhalation, dust or mist | 90.7 %  |

#### **Environmental Hazards**

| Acute hazards to the aquatic | Category 3 |
|------------------------------|------------|
| environment                  |            |

#### **Unknown toxicity - Environment**

| Acute hazards to the aquatic environment   | 88.92 % |
|--|---------|
| Chronic hazards to the aquatic environment | 98.19 % |

#### Label Elements

Hazard Symbol:

| Signal Word:                                  | Danger   |
|---|--|
| Hazard Statement:                             | May cause allergy or asthma symptoms or breathing difficulties if inhaled.<br>May cause an allergic skin reaction.<br>May cause cancer.<br>Harmful to aquatic life.  |
| Precautionary<br>Statements                   |  |
| Prevention:                                   | Avoid breathing dust/fume/gas/mist/vapors/spray. [In case of inadequate ventilation] wear respiratory protection. Contaminated work clothing should not be allowed out of the workplace. Wear protective gloves/protective clothing/eye protection/face protection. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required. Avoid release to the environment. |
| Response:                                     | IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. If experiencing respiratory symptoms: Call a POISON CENTER/doctor/ IF ON SKIN: Wash with plenty of water/ If skin irritation or rash occurs: Get medical advice/attention. IF exposed or concerned: Get medical advice/attention. Specific treatment (see on this label). Wash contaminated clothing before reuse.                         |
| Storage:                                      | Store locked up.   |
| Disposal:                                     | Dispose of contents/container to an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal.   |
| Hazard(s) not otherwise<br>classified (HNOC): | None.  |

# 3. Composition/information on ingredients

#### Mixtures

| Chemical Identity | CAS number | Content in percent (%)* |
|-------------------|------------|-------------------------|
|-------------------|------------|-------------------------|

| Calcium Carbonate<br>(Limestone)            | 1317-65-3  | 10 - <20%  |
|---|------------|------------|
| Polyvinyl chloride                          | 9002-86-2  | 10 - <20%  |
| Titanium dioxide                            | 13463-67-7 | 1 - <5%    |
| Petroleum distillates                       | 64742-47-8 | 1 - <5%    |
| Aliphatic naphtha                           | 64742-88-7 | 1 - <5%    |
| Calcium oxide                               | 1305-78-8  | 1 - <5%    |
| Xylene                                      | 1330-20-7  | 1 - <5%    |
| Isophorone Diisocyanate                     | 4098-71-9  | 0.1 - <1%  |
| Aluminum oxide                              | 1344-28-1  | 0.1 - <1%  |
| Ethylbenzene                                | 100-41-4   | 0.1 - <1%  |
| Hydrotreated heavy<br>naphthenic distillate | 64742-52-5 | 0.1 - <1%  |
| Nonane                                      | 111-84-2   | 0.1 - <1%  |
| lodopropynyl butylcarbamate                 | 55406-53-6 | 0.01 - <1% |

\* All concentrations are percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

#### 4. First-aid measures

| Ingestion:                        | Call a POISON CENTER/doctor if you feel unwell. Rinse mouth.  |
|-----------------------------------|---|
| Inhalation:                       | Call a physician or poison control center immediately. If breathing stops, provide artificial respiration. Move to fresh air. If breathing is difficult, give oxygen.   |
| Skin Contact:                     | If skin irritation occurs: Get medical advice/attention. Destroy or thoroughly clean contaminated shoes. Immediately remove contaminated clothing and shoes and wash skin with soap and plenty of water. If skin irritation or an allergic skin reaction develops, get medical attention. |
| Eye contact:                      | Any material that contacts the eye should be washed out immediately with water. If easy to do, remove contact lenses. If eye irritation persists: Get medical advice/attention.   |
| Most important symptoms/effect    | ts, acute and delayed   |
| Symptoms:                         | May cause skin and eye irritation.  |
| Indication of immediate medical a | attention and special treatment needed  |
| Treatment:                        | Symptoms may be delayed.  |
| 5. Fire-fighting measures         |   |
| General Fire Hazards:             | No unusual fire or explosion hazards noted.   |
| Suitable (and unsuitable) exting  | uishing media   |
| Suitable extinguishing media:     | Use fire-extinguishing media appropriate for surrounding materials.   |

Version: 1.1 Revision Date: 03/28/2019

| Unsuitable extinguishing media:  | Do not use water jet as an extinguisher, as this will spread the fire.   |  |  |  |
|--|--|--|--|--|
| Specific hazards arising from the chemical:                                | During fire, gases hazardous to health may be formed.  |  |  |  |
| Special protective equipment an  | d precautions for firefighters   |  |  |  |
| Special fire fighting<br>procedures:                                       | No data available.   |  |  |  |
| Special protective equipment for fire-fighters:                            | Self-contained breathing apparatus and full protective clothing must be worn in case of fire.  |  |  |  |
| 6. Accidental release measure  | s  |  |  |  |
| Personal precautions,<br>protective equipment and<br>emergency procedures: | Ventilate closed spaces before entering them. Evacuate area. See Section 8 of the SDS for Personal Protective Equipment. Keep upwind. Keep unauthorized personnel away. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.  |  |  |  |
| Methods and material for<br>containment and cleaning<br>up:                | Collect spillage in containers, seal securely and deliver for disposal according to local regulations.   |  |  |  |
| Notification Procedures:   | In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.  |  |  |  |
| Environmental Precautions:   | Avoid release to the environment. Prevent further leakage or spillage if safe to do so.  |  |  |  |
| 7. Handling and storage  |  |  |  |  |
| Precautions for safe handling:   | Ventilate well, avoid breathing vapors. Use approved respirator if air contamination is above accepted level. Use mechanical ventilation in case of handling which causes formation of dust. Do not handle until all safety precautions have been read and understood. Obtain special instructions before use. Use personal protective equipment as required. Do not breathe dust/fume/gas/mist/vapors/spray. Avoid contact with eyes, skin, and clothing. Wash hands thoroughly after handling. |  |  |  |
| Conditions for safe storage,<br>including any<br>incompatibilities:        | Store locked up.   |  |  |  |

# 8. Exposure controls/personal protection

#### Biological Limit Values

| Chemical Identity   | Exposure Limit Values          | Source              |
|---|--------------------------------|---------------------|
| Xylene (Methylhippuric acids:<br>Sampling time: End of shift.)                                      | 1.5 g/g (Creatinine in urine)  | ACGIH BEI (03 2013) |
| Ethylbenzene (Sum of<br>mandelic acid and<br>phenylglyoxylic acid:<br>Sampling time: End of shift.) | 0.15 g/g (Creatinine in urine) | ACGIH BEI (02 2014) |

| Appropriate Engineering<br>Controls | Mechanical ventilation or local exhaust ventilation may be required.<br>Observe good industrial hygiene practices. Observe occupational exposure<br>limits and minimize the risk of inhalation of dust.   |
|-------------------------------------|---|
| Individual protection measures, s   | such as personal protective equipment   |
| General information:                | Use personal protective equipment as required.  |
| Eye/face protection:                | Wear goggles/face shield.   |
| Skin Protection<br>Hand Protection: | Use suitable protective gloves if risk of skin contact.   |
| Other:                              | Wear chemical-resistant gloves, footwear, and protective clothing appropriate for the risk of exposure. Contact health and safety professional or manufacturer for specific information.  |
| Respiratory Protection:             | If engineering controls do not maintain airborne concentrations below<br>recommended exposure limits (where applicable) or to an acceptable level<br>(in countries where exposure limits have not been established), an<br>approved respirator must be worn. Air-purifying respirator with an<br>appropriate, government approved (where applicable), air-purifying filter,<br>cartridge or canister. Contact health and safety professional or<br>manufacturer for specific information. |
| Hygiene measures:                   | Observe good industrial hygiene practices. Wash hands before breaks and immediately after handling the product. Contaminated work clothing should not be allowed out of the workplace. Avoid contact with skin.   |

# 9. Physical and chemical properties

| Appearance                                    |  |
|---|--|
| Physical state:                               | solid                                  |
| Form:   | Paste                                  |
| Color:  | White                                  |
| Odor:   | Mild                                   |
| Odor threshold:                               | No data available.                     |
| pH:   | No data available.                     |
| Melting point/freezing point:                 | No data available.                     |
| Initial boiling point and boiling range:      | No data available.                     |
| Flash Point:                                  | > 93 °C > 199 °F(Setaflash Closed Cup) |
| Evaporation rate:                             | Slower than n-Butyl Acetate            |
| Flammability (solid, gas):                    | No                                     |
| Upper/lower limit on flammability or explosi- | ve limits                              |
| Flammability limit - upper (%):               | No data available.                     |
| Flammability limit - lower (%):               | No data available.                     |
| Explosive limit - upper (%):                  | No data available.                     |
| Explosive limit - lower (%):                  | No data available.                     |
| Vapor pressure:                               | No data available.                     |

| Vapor density:                           | Vapors are heavier than air and may travel along the floor and in the bottom of containers. |
|--|---|
| Relative density:                        | 1.32  |
| Solubility(ies)                          |   |
| Solubility in water:                     | Insoluble in water  |
| Solubility (other):                      | No data available.  |
| Partition coefficient (n-octanol/water): | No data available.  |
| Auto-ignition temperature:               | No data available.  |
| Decomposition temperature:               | No data available.  |
| Viscosity:                               | No data available.  |
| 10. Stability and reactivity             |   |

| Reactivity:                            | No data available.  |
|--|---|
| Chemical Stability:                    | Material is stable under normal conditions.   |
| Possibility of hazardous<br>reactions: | No data available.  |
| Conditions to avoid:                   | Avoid heat or contamination.  |
| Incompatible Materials:                | Alcohols. Amines. Strong acids. Avoid contact with oxidizing agents (e.g. nitric acid, peroxides and chromates). Strong bases. Water, moisture. |
| Hazardous Decomposition<br>Products:   | Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapors.   |

# 11. Toxicological information

| Information on likely routes of<br>Inhalation: | exposure<br>In high concentrations, vapors, fumes or mists may irritate nose, throat and<br>mucus membranes. |
|--|--|
| Skin Contact:                                  | Causes mild skin irritation. May cause an allergic skin reaction.  |
| Eye contact:                                   | Eye contact is possible and should be avoided.   |
| Ingestion:                                     | May be ingested by accident. Ingestion may cause irritation and malaise.                                     |
| Symptoms related to the physi                  | cal, chemical and toxicological characteristics  |
| Inhalation:                                    | No data available.   |
| Skin Contact:                                  | No data available.   |
| Eye contact:                                   | No data available.   |

Ingestion: No data available.

#### Information on toxicological effects

# Acute toxicity (list all possible routes of exposure)

| Oral<br>Product:                            | Not classified for acute toxicity based on available data. |
|---|--|
| Specified substance(s):<br>Titanium dioxide | LD 50 (Rat): > 5,000 mg/kg                                 |
| Petroleum distillates                       | LD 50 (Rat): > 5,000 mg/kg                                 |

#### 4. First-aid Measures

#### 4.1 Description of First Aid Measures

GENERAL NOTES: Show this safety data sheet to the doctor in attendance.

**AFTER INHALATION:** Move to fresh air. Provide fresh air, rest and warmth. Call a physician immediately. Give oxygen or artificial respiration if needed. When risk of unconsciousness, place and transport the victim in secured recovery position. **AFTER SKIN CONTACT:** Use a mild soap if available. Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. If skin irritation persists, call a physician. Do not use solvent or thinners to clean skin. **AFTER EYE CONTACT:** Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses. If eye irritation persists, consult a specialist.

**AFTER INGESTION:** If vomiting occurs spontaneously: Keep head below hips to prevent aspiration of stomach vomit into lungs. Provide fresh air, rest and warmth. Do not induce vomiting. Get immediate medical attention. Never give anything by mouth to an unconscious person.

#### Self protection of the first aider:

No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

#### 4.2 Most important symptoms and effects, both acute and delayed

May be harmful by inhalation (after often repeated exposure).

#### 4.3 Indication of any immediate medical attention and special treatment needed

No information available on clinical testing and medical monitoring. Specific toxicological information on substances, if available, can be found in section 11. When symptoms persist or in all cases of doubt seek medical advice.

#### 5. Fire-fighting Measures

#### 5.1 Extinguishing Media:

Alcohol Foam, Carbon Dioxide, Dry Chemical, Foam, Water Fog

FOR SAFETY REASONS NOT TO BE USED: Alcohol, Alcohol based solutions, any other media not listed above. Do not use a solid water stream as it may scatter and spread fire.

#### 5.2 Special hazards arising from the substance or mixture

Heating or fire conditions liberates toxic gas.

#### 5.3 Advice for firefighters

In the event of fire, wear self-contained breathing apparatus. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Keep containers and surroundings cool with water spray.

#### 6. Accidental Release Measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation. Use personal protective equipment.

#### 6.2 Environmental precautions

Do not allow material to contaminate ground water system. Prevent product from entering drains. Local authorities should be advised if significant spillages cannot be contained.

#### 6.3 Methods and material for containment and cleaning up

Prevent further leakage or spillage if safe to do so. Contain spillage, soak up with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and transfer to a container for disposal according to local / national regulations (see section 13).

#### 6.4 Reference to other sections

Please refer to disposal requirements or country specific disposal requirements for this material. See Section 13 for further information.

#### 7. Handling and Storage

#### 7.1 Precautions for safe handling

**INSTRUCTIONS FOR SAFE HANDLING:** Electrical equipment should be protected to the appropriate standard. Wear personal protective equipment. Do not breathe vapours or spray mist. Apply technical measures to comply with the occupational exposure limits (see section 8).

**PROTECTION AND HYGIENE MEASURES:** Wash hands before breaks and at the end of workday. When using, do not eat, drink or smoke.

#### 7.2 Conditions for safe storage, including any incompatibilities

**CONDITIONS TO AVOID:** Avoid heat, sparks, flames and other ignition sources. **STORAGE CONDITIONS:** Store in original container. Store in a dry, well ventilated place away from sources of heat, ignition and direct sunlight. Protect from frost. Store in upright position only.

#### 7.3 Specific end use(s)

No specific advice for end use available.

#### 8. Exposure Controls/Personal Protection

#### 8.1 Control parameters

#### Ingredients with Occupational Exposure Limits

FURTHER INFORMATION: Refer to the regulatory exposure limits for the workforce enforced in each country.

#### 8.2 Exposure controls

#### **Personal Protection**

**RESPIRATORY PROTECTION:** Use the indicated respiratory protection if the occupational exposure limit is exceeded and/or in case of product release (dust). In case of insufficient ventilation wear suitable respiratory equipment. Combination filter: A2-P2.

**EYE PROTECTION:** If splashes are likely to occur, wear: Face-shield, tightly fitting safety goggles (EN 166).

**HAND PROTECTION:** Take note of the information given by the producer concerning permeability and break through times, and of special workplace conditions (mechanical strain, duration of contact). Be aware that in daily use the durability of a chemical resistant protective glove can be notably shorter than the break through time measured according to EN 374, due to the numerous outside influences (e.g. temperature). Use chemical resistant gloves and lotions and barrier creams to prevent drying of the skin. Use chemical resistant gloves (EN 374): Neoprene, nitril rubber, butyl rubber.

**OTHER PROTECTIVE EQUIPMENT:** Ensure that eyewash stations and safety showers are close to the workstation location. **ENGINEERING CONTROLS:** Ensure adequate ventilation, especially in confined areas.

#### 9. Physical and Chemical Properties

| 9.1 | Information on basic physical and chemical properties<br>Appearance: | viscous Liquid    |
|-----|--|-------------------|
|     | Physical State   | Liquid            |
|     | Odor   | Slight            |
|     | Odor threshold   | Not determined    |
|     | рН   | Not determined    |
|     | Melting point / freezing point (°C)                                  | Not determined    |
|     | Boiling point/range (°C)   | 100 - 100         |
|     | Flash Point, (°C)  | N/A               |
|     | Evaporation rate   | Slower than ether |
|     | Flammability (solid, gas)  | Not determined    |
|     | Upper/lower flammability or explosive limits                         | Not determined    |
|     | Vapour Pressure  | Not determined    |
|     | Vapour density   | Heavier than air  |
|     | Relative density   | 1.44 - 1.48       |
|     | Solubility in / Miscibility with water                               | Miscible          |
|     | Partition coefficient: n-octanol/water                               | Not determined    |
|     | Auto-ignition temperature (°C)                                       | Not determined    |
|     | Decomposition temperature (°C)                                       | Not determined    |
|     | Viscosity  | Not determined    |
|     | Explosive properties   | Not determined    |
|     | Oxidising properties   | Not determined    |
| 9.2 | Other information  |                   |
|     | VOC Content g/I:   | 25                |
|     | Calculated grams of VOC per liter of coating product a               |                   |
|     | Specific Gravity (g/cm3)   | 1.476             |
|     |  |                   |

# 10. Stability and Reactivity

#### 10.1 Reactivity

No reactivity hazards known under normal storage and use conditions.

# 10.2 Chemical stability

Stable under normal conditions.

10.3 Possibility of hazardous reactions No Information

#### 10.4 Conditions to avoid

Avoid heat, sparks, flames and other ignition sources.

10.5 Incompatible materials No Information

#### 10.6 Hazardous decomposition products

In case of fire hazardous decomposition products may be produced such as:Carbon monoxide (CO), carbon dioxide (CO2), oxides of nitrogen (NOx).

# 11. Toxicological Information

#### 11.1 Information on toxicological effects

| Acute Toxicity:            |                           |
|----------------------------|---------------------------|
| Oral LD50:                 | No information available. |
| Inhalation LC50:           | No information available. |
| Irritation:                | No information available. |
| Corrosivity:               | No information available. |
| Sensitization:             | No information available. |
| Repeated dose toxicity:    | No information available. |
| Carcinogenicity:           | No information available. |
| Mutagenicity:              | No information available. |
| Toxicity for reproduction: | No information available. |
| STOT-single exposure:      | No information available. |
| STOT-repeated exposure:    | No information available. |
| Aspiration hazard:         | No information available. |

If no information is available above under Acute Toxicity then the acute effects of this product have not been tested. Data on individual components are tabulated below:

| CAS-No.    | Chemical Name    | Oral LD50                  | Dermal LD50 | Vapor LC50 | Gas LC50 | Dust/Mist LC50 |
|------------|------------------|----------------------------|-------------|------------|----------|----------------|
| 13463-67-7 | titanium dioxide | 10000 mg/m3,<br>oral (rat) |             |            | 0.000    | 0.000          |

#### Additional Information:

Repeated or prolonged skin contact may cause allergic reactions with susceptible persons. Not considered hazardous under normal conditions of use. Exposure to mist or spray may cause irritation. May be harmful if swallowed. This product may contain Titanium Dioxide, which is listed by IARC as possibly carcinogenic to humans (Group 2B). This listing is based on inadequate evidence of carcinogenicity in humans and sufficient evidence in experimental animals. This classification is relevant when exposed to titanium dioxide in dust or powder form only, including cured product that is subject to sanding, grinding, cutting, or other surface preparation activities.

#### 13. Disposal Considerations

**13.1 WASTE TREATMENT METHODS:** Do not burn, or use a cutting torch on, the empty drum. According to the European Waste Catalogue, Waste Codes are not product specific, but application specific. Empty containers should be taken to an approved waste handling site for recycling or disposal. Dispose of waste material at an approved (hazardous) waste treatment/disposal facility in accordance with applicable local state, and federal regulations. Do not dispose of waste with normal garbage, or to sewer systems.

# 14. Transport Information

| 14.1 | UN number   | Not applicable |
|------|---|----------------|
| 14.2 | UN proper shipping name   | Not regulated  |
|      | Technical name  | Not applicable |
| 14.3 | Transport hazard class(es)  | Not applicable |
|      | Subsidiary shipping hazard  | Not applicable |
| 14.4 | Packing group   | Not applicable |
| 14.5 | Environmental hazards   | Not applicable |
| 14.6 | Special precautions for user  | Not applicable |
|      | EmS-No.:  | Not applicable |
| 14.7 | Transport in bulk according to Annex II of<br>MARPOL 73/78 and the IBC code | Not applicable |

# 15. Regulatory Information

15.1 Safety, health and environmental regulations/legislation for the substance or mixture:

| National Regulations:                |               |  |  |  |  |
|--------------------------------------|---------------|--|--|--|--|
| Denmark Product Registration Number: | Not available |  |  |  |  |
| Danish MAL Code:                     | Not available |  |  |  |  |
| Danish MAL Code - Mixture:           | Not available |  |  |  |  |
| Sweden Product Registration Number:  | Not available |  |  |  |  |
| Norway Product Registration Number:  | Not available |  |  |  |  |
| WGK Class:                           | Not available |  |  |  |  |

#### 15.2 Chemical Safety Assessment:

16. Other Information

No Chemical Safety Assessment has been carried out for this substance/mixture by the supplier.

Product: T-S1120050

#### Text for GHS Hazard Statements shown in Section 3 describing each ingredient:

| H302                                 | Harmful if swallowed.  |
|--------------------------------------|--|
| H312                                 | Harmful in contact with skin.  |
| H314                                 | Causes severe skin burns and eye damage.   |
| H318                                 | Causes serious eye damage.   |
| H319                                 | Causes serious eye irritation.   |

Additional Information:

The text for GHS Hazard Statements shown above (if any) is given in Section 16.

### 4. First-aid Measures

#### 4.1 Description of First Aid Measures

GENERAL NOTES: Show this safety data sheet to the doctor in attendance.

AFTER INHALATION: Move to fresh air. Provide fresh air, rest and warmth. Call a physician immediately. Give oxygen or artificial respiration if needed. When risk of unconsciousness, place and transport the victim in secured recovery position. AFTER SKIN CONTACT: Use a mild soap if available. Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. If skin irritation persists, call a physician. Do not use solvent or thinners to clean skin. AFTER EYE CONTACT: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses. If eye irritation persists, consult a specialist.

**AFTER INGESTION:** If vomiting occurs spontaneously: Keep head below hips to prevent aspiration of stomach vomit into lungs. Provide fresh air, rest and warmth. Do not induce vomiting. Get immediate medical attention. Never give anything by mouth to an unconscious person.

#### Self protection of the first aider:

No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

#### 4.2 Most important symptoms and effects, both acute and delayed

May be harmful by inhalation (after often repeated exposure).

#### 4.3 Indication of any immediate medical attention and special treatment needed

No information available on clinical testing and medical monitoring. Specific toxicological information on substances, if available, can be found in section 11. When symptoms persist or in all cases of doubt seek medical advice.

#### 5. Fire-fighting Measures

#### 5.1 Extinguishing Media:

Alcohol Foam, Carbon Dioxide, Dry Chemical, Foam, Water Fog

FOR SAFETY REASONS NOT TO BE USED: Alcohol, Alcohol based solutions, any other media not listed above. Do not use a solid water stream as it may scatter and spread fire.

#### 5.2 Special hazards arising from the substance or mixture

Heating or fire conditions liberates toxic gas.

#### 5.3 Advice for firefighters

In the event of fire, wear self-contained breathing apparatus. Collect contaminated fire extinguishing water separately. This

#### must not be discharged into drains. Keep containers and surroundings cool with water spray.

#### 6. Accidental Release Measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation. Use personal protective equipment.

#### 6.2 Environmental precautions

Do not allow material to contaminate ground water system. Prevent product from entering drains. Local authorities should be advised if significant spillages cannot be contained.

#### 6.3 Methods and material for containment and cleaning up

Prevent further leakage or spillage if safe to do so. Contain spillage, soak up with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and transfer to a container for disposal according to local / national regulations (see section 13).

#### 6.4 Reference to other sections

Please refer to disposal requirements or country specific disposal requirements for this material. See Section 13 for further information.

#### 7. Handling and Storage

#### 7.1 Precautions for safe handling

**INSTRUCTIONS FOR SAFE HANDLING:** Electrical equipment should be protected to the appropriate standard. Wear personal protective equipment. Do not breathe vapours or spray mist. Apply technical measures to comply with the occupational exposure limits (see section 8).

**PROTECTION AND HYGIENE MEASURES:** Wash hands before breaks and at the end of workday. When using, do not eat, drink or smoke.

#### 7.2 Conditions for safe storage, including any incompatibilities

**CONDITIONS TO AVOID:** Avoid heat, sparks, flames and other ignition sources. **STORAGE CONDITIONS:** Store in original container. Store in a dry, well ventilated place away from sources of heat, ignition and direct sunlight. Protect from frost. Store in upright position only.

#### 7.3 Specific end use(s)

No specific advice for end use available.

#### 8. Exposure Controls/Personal Protection

#### 8.1 Control parameters

Ingredients with Occupational Exposure Limits (EU)

| Name                            | CAS-No.    | LTEL ppm | STEL ppm | STEL mg/m3 | LTEL mg/m3 |
|---------------------------------|------------|----------|----------|------------|------------|
| titanium dioxide                | 13463-67-7 |          |          |            |            |
| trizinc bis(orthophosphate)     | 7779-90-0  |          |          |            |            |
| zinc oxide                      | 1314-13-2  |          |          |            |            |
| 1,2 propanediol                 | 57-55-6    |          |          |            |            |
| quartz (silicon dioxide)        | 14808-60-7 |          |          |            |            |

| titanium dioxide                | 13463-67-7 |          |
| trizinc bis(orthophosphate)     | 7779-90-0  |          |
| zinc oxide                      | 1314-13-2  |          |
| 1,2 propanediol                 | 57-55-6    |          |
| quartz (silicon dioxide)        | 14808-60-7 |          |
| 3-aminopropyltriethoxysilane    | 919-30-2   |          |
| 3-iodo-2-propynylbutylcarbamate | 55406-53-6 |          |

FURTHER INFORMATION: Refer to the regulatory exposure limits for the workforce enforced in each country.

#### 8.2 Exposure controls

#### Personal Protection

**RESPIRATORY PROTECTION:** Use the indicated respiratory protection if the occupational exposure limit is exceeded and/or in case of product release (dust). In case of insufficient ventilation wear suitable respiratory equipment. Combination filter: A2-P2.

**EYE PROTECTION:** If splashes are likely to occur, wear: Face-shield, tightly fitting safety goggles (EN 166). **HAND PROTECTION:** Take note of the information given by the producer concerning permeability and break through times, and of special workplace conditions (mechanical strain, duration of contact). Be aware that in daily use the durability of a chemical resistant protective glove can be notably shorter than the break through time measured according to EN 374, due to the numerous outside influences (e.g. temperature). Use chemical resistant gloves and lotions and barrier creams to prevent

drying of the skin. Use chemical resistant gloves (EN 374): Neoprene, nitril rubber, butyl rubber. OTHER PROTECTIVE EQUIPMENT: Ensure that eyewash stations and safety showers are close to the workstation location.

ENGINEERING CONTROLS: Ensure adequate ventilation, especially in confined areas.

# 9. Physical and Chemical Properties

|     | -   |                |
|-----|---|----------------|
| 9.1 | Information on basic physical and chemical properties Appearance: | VISCOUS LIQUID |
|     | Physical State  | Liquid         |

|     | Specific Gravity (g/cm3)   | 1.321                            |

# 10. Stability and Reactivity

#### 10.1 Reactivity

No reactivity hazards known under normal storage and use conditions.

#### 10.2 Chemical stability

Stable under normal conditions.

#### 10.3 Possibility of hazardous reactions No Information

### 10.4 Conditions to avoid

Avoid heat, sparks, flames and other ignition sources.

#### **10.5 Incompatible materials** No Information

#### 10.6 Hazardous decomposition products

In case of fire hazardous decomposition products may be produced such as:Carbon monoxide (CO), carbon dioxide (CO2), oxides of nitrogen (NOx).

# 11. Toxicological Information

#### 11.1 Information on toxicological effects

| Acute Toxicity:            |                           |
|----------------------------|---------------------------|
| Oral LD50:                 | No information available. |
| Inhalation LC50:           | No information available. |
| Irritation:                | No information available. |
| Corrosivity:               | No information available. |
|                            |                           |
| Sensitization:             | No information available. |
| Repeated dose toxicity:    | No information available. |
| Carcinogenicity:           | No information available. |
| Mutagenicity:              | No information available. |
| Toxicity for reproduction: | No information available. |
| STOT-single exposure:      | No information available. |
| STOT-repeated exposure:    | No information available. |
| Aspiration hazard:         | No information available. |

If no information is available above under Acute Toxicity then the acute effects of this product have not been tested. Data on individual components are tabulated below:

| CAS-No.    | Chemical Name               | Oral LD50                  | Dermal LD50 | Vapor LC50 | Gas LC50 | Dust/Mist LC50 |
|------------|-----------------------------|----------------------------|-------------|------------|----------|----------------|
| 13463-67-7 | titanium dioxide            | 10000 mg/m3,<br>oral (rat) |             |            | 0.000    | 0.000          |
| 7779-90-0  | trizinc bis(orthophosphate) | 552 mg/kg, oral<br>rat     |             |            | 0.000    | 0.000          |

#### Additional Information:

Repeated or prolonged skin contact may cause allergic reactions with susceptible persons. Not considered hazardous under normal conditions of use. Exposure to mist or spray may cause irritation. May be harmful if swallowed. This product may contain Titanium Dioxide, which is listed by IARC as possibly carcinogenic to humans (Group 2B). This listing is based on inadequate evidence of carcinogenicity in humans and sufficient evidence in experimental animals. This classification is relevant when exposed to titanium dioxide in dust or powder form only, including cured product that is subject to sanding, grinding, cutting, or other surface preparation activities.

# 12. Ecological Information

12.1 Toxicity:

# 13. Disposal Considerations

**13.1 WASTE TREATMENT METHODS:** Do not burn, or use a cutting torch on, the empty drum. According to the European Waste Catalogue, Waste Codes are not product specific, but application specific. Empty containers should be taken to an approved waste handling site for recycling or disposal. Dispose of waste material at an approved (hazardous) waste treatment/disposal facility in accordance with applicable local state, and federal regulations. Do not dispose of waste with normal garbage, or to sewer systems.

| 14.  | Transport Information   |   |
|------|---|---|
| 14.1 | UN number   | Not applicable  |
| 14.2 | UN proper shipping name   | Not regulated for transport according to U.S. DOT, ADR/RID, IMDG, and IATA regulations. |
|      | Technical name  | Not applicable  |
| 14.3 | Transport hazard class(es)  | Not applicable  |
|      | Subsidiary shipping hazard  | Not applicable  |
| 14.4 | Packing group   | Not applicable  |
| 14.5 | Environmental hazards   | Not applicable  |
| 14.6 | Special precautions for user  | Not applicable  |
|      | EmS-No.:  | Not applicable  |
| 14.7 | Transport in bulk according to Annex II of<br>MARPOL 73/78 and the IBC code | Not applicable  |

#### 15. Regulatory Information

<sup>15.1</sup> Safety, health and environmental regulations/legislation for the substance or mixture:

# National Regulations:

| Denmark Product Registration Number: | Not available |
|--------------------------------------|---------------|
| Danish MAL Code:                     | Not available |
| Danish MAL Code - Mixture:           | Not available |
| Sweden Product Registration Number:  | Not available |
| Norway Product Registration Number:  | Not available |
| WGK Class:                           | Not available |

#### 15.2 Chemical Safety Assessment:

No Chemical Safety Assessment has been carried out for this substance/mixture by the supplier.

| 16. Other Information |
|-----------------------|
|-----------------------|

#### Text for GHS Hazard Statements shown in Section 3 describing each ingredient:

| H302 | Harmful if swallowed.                                 |
|------|---|
| H312 | Harmful in contact with skin.                         |
| H314 | Causes severe skin burns and eye damage.              |
| H318 | Causes serious eye damage.                            |
| H332 | Harmful if inhaled.                                   |
| H350 | May cause cancer.                                     |
| H351 | Suspected of causing cancer.                          |
| H370 | Causes damage to organs.                              |
| H400 | Very toxic to aquatic life.                           |
| H410 | Very toxic to aquatic life with long lasting effects. |
|      |   |

#### **Reasons for revision**

This is a new Safety Data Sheet (SDS).

List of References:

This Safety Data Sheet was compiled with data and information from the following sources:

The Ariel Regulatory Database provided by the 3E Corporation in Copenhagen, Denmark; European Union Commission Regulation No. 1907/2006 on REACH as amended within Commission Regulation (EU) 2015/830; European Union (EC) Regulation No. 1272/2008 on the classification, labelling and packaging of substances and mixtures (CLP Regulation) and subsequent technical progress adaptations (ATP); EU Council Decision 2000/532/EC and its Annex entitled "List of Wastes".

#### 2.3 Other hazards

No Information

#### Results of PBT and vPvB assessment:

The product does not meet the criteria for PBT/VPvB in accordance with Annex XIII.

# 3. Composition/Information On Ingredients 3.2 Mixtures Hazardous ingredients Name According to EEC EINEC No. Classifications

| Name According to EEC    | EINEC No. | CAS-No.    | <u>%</u> | Classifications |
|--------------------------|-----------|------------|----------|-----------------|
| portland cement          | 266-043-4 | 65997-15-1 | 50 - <75 | H315-317-318    |
| quartz (silicon dioxide) | 238-878-4 | 14808-60-7 | 25 - <50 | H350-370        |

| CAS-No.    | M-Factors |
|------------|-----------|
| 65997-15-1 | 0         |
| 14808-60-7 | 0         |

Additional Information: The text for GHS Hazard Statements shown above (if any) is given in Section 16.

#### 4. First-aid Measures

#### 4.1 Description of First Aid Measures

GENERAL NOTES: No Information

AFTER INHALATION: Move to fresh air. Consult a physician after significant exposure.

AFTER SKIN CONTACT: Use a mild soap if available. Wash off with soap and plenty of water.

AFTER EYE CONTACT: Rinse thoroughly with plenty of water, also under the eyelids. Remove contact lenses. If eye irritation persists, consult a specialist.

**AFTER INGESTION:** Gently wipe or rinse the inside of the mouth with water. Give small amounts of water to drink. Never give anything by mouth to an unconscious person.

#### Self protection of the first aider:

No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

#### 4.2 Most important symptoms and effects, both acute and delayed

Harmful by inhalation.

#### 4.3 Indication of any immediate medical attention and special treatment needed

No information available on clinical testing and medical monitoring. Specific toxicological information on substances, if available, can be found in section 11.

#### 5. Fire-fighting Measures

#### 5.1 Extinguishing Media:

Carbon Dioxide, Dry Chemical, Foam, Water Fog FOR SAFETY REASONS NOT TO BE USED: Alcohol, Alcohol based solutions, any other media not listed above.

#### 5.2 Special hazards arising from the substance or mixture

No Information

#### 5.3 Advice for firefighters

None known. The product itself does not burn. In the event of fire, wear self-contained breathing apparatus. Water sprayDry powderAlcohol-resistant foamCarbon dioxide (CO2). High volume water jet. None.

#### 6. Accidental Release Measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation. Avoid dust formation. Use personal protective equipment.

#### 6.2 Environmental precautions

No Information

#### 6.3 Methods and material for containment and cleaning up

Pick up and transfer to properly labelled containers. No special environmental precautions required. After cleaning, flush away traces with water.

#### 6.4 Reference to other sections

Please refer to disposal requirements or country specific disposal requirements for this material. See Section 13 for further information.

#### 7. Handling and Storage

#### 7.1 Precautions for safe handling

**INSTRUCTIONS FOR SAFE HANDLING:** Use only in area provided with appropriate exhaust ventilation. Provide sufficient air exchange and/or exhaust in work rooms. Wear personal protective equipment. Avoid dust formation. Protect from moisture.

**PROTECTION AND HYGIENE MEASURES:** Wash hands before breaks and at the end of workday. Do not breathe dust. When using, do not eat, drink or smoke.

#### 7.2 Conditions for safe storage, including any incompatibilities

**CONDITIONS TO AVOID:** No Information **STORAGE CONDITIONS:** Keep tightly closed in a dry and cool place.

#### 7.3 Specific end use(s)

No specific advice for end use available.

#### 8. Exposure Controls/Personal Protection

#### 8.1 Control parameters

#### Ingredients with Occupational Exposure Limits

(EU)

| Name                     | CAS-No.    | LTEL ppm | STEL ppm | STEL mg/m3 | LTEL mg/m3 |

| portland cement          | 65997-15-1 |          |          |            |            |
| quartz (silicon dioxide) | 14808-60-7 |          |          |            |            |
|                          |            |          |          |            |            |

FURTHER INFORMATION: Refer to the regulatory exposure limits for the workforce enforced in each country.

#### 8.2 Exposure controls

Personal Protection RESPIRATORY PROTECTION: Effective dust mask. EYE PROTECTION: Safety glasses with side-shields. HAND PROTECTION: Protective gloves. Long sleeved clothing. Remove and wash contaminated clothing before re-use. OTHER PROTECTIVE EQUIPMENT: No Information ENGINEERING CONTROLS: Ensure adequate ventilation, especially in confined areas.

#### 9. Physical and Chemical Properties

#### 9.1 Information on basic physical and chemical properties

| Appearance:                         | Grey Powder    |
|-------------------------------------|----------------|
| Physical State                      | Solid          |
| Odor                                | Lower Odour    |
| Odor threshold                      | Not determined |
| рН                                  | Not determined |
| Melting point / freezing point (°C) | Not determined |
| Boiling point/range (°C)            | N.D N.D.       |

|   | Flash Point, (°C)                                       | n/a               |
|---|---|-------------------|
|   | Evaporation rate  | Not determined    |
|   | Flammability (solid, gas)                               | Not determined    |
|   | Upper/lower flammability or explosive limits            | 999 - 0           |
|   | Vapour Pressure   | Not determined    |
|   | Vapour density  | Not determined    |
|   | Relative density  | 2.88              |
|   | Solubility in / Miscibility with water                  | Reacts with water |
|   | Partition coefficient: n-octanol/water                  | Not determined    |
|   | Auto-ignition temperature (°C)                          | Not determined    |
|   | Decomposition temperature (°C)                          | Not determined    |
|   | Viscosity   | Not determined    |

|   | Oxidising properties                                    | Not determined    |
| 2 | Other information                                       |                   |
|   | VOC Content g/I:  | 0                 |
|   | Calculated grams of VOC per liter of coating product as | s applied.        |
|   | Specific Gravity (g/cm3)                                | 2.891             |
|   |   |                   |

# 10. Stability and Reactivity

#### 10.1 Reactivity

9.2

No reactivity hazards known under normal storage and use conditions.

#### 10.2 Chemical stability

Stable under normal conditions.

**10.3 Possibility of hazardous reactions** Hazardous polymerisation does not occur.

#### 10.4 Conditions to avoid No Information

# 10.5 Incompatible materials

Do not store near acids. Strong oxidizing agents.

#### 10.6 Hazardous decomposition products

No hazardous decomposition products are known. Hydrogen fluoride

# 11. Toxicological Information

#### Information on toxicological effects 11.1 Acute Toxicity: No information Oral LD50: No information Inhalation LC50: No information available. Irritation: No information available. Corrosivity: Sensitization: No information available. No information available. Repeated dose toxicity: Carcinogenicity: This product contains one or more carcinogenic substances. See hazard classification and precautionary statements in Section 2 for further information **Mutagenicity:** No information available. No information available. Toxicity for reproduction: No information available. STOT-single exposure: No information available. STOT-repeated exposure: No information available. Aspiration hazard:

If no information is available above under Acute Toxicity then the acute effects of this product have not been tested. Data on individual components are tabulated below:

| CAS-No. | Chemical Name                                 | Oral LD50 | Dermal LD50 | Vapor LC50 | Gas LC50 | Dust/Mist LC50 |
|---------|---|-----------|-------------|------------|----------|----------------|
|         | Data at the substance level is not available. |           |             |            |          |                |

#### Additional Information:

The cement contained within this product may cause dermal sensitization due to the potential presence of trace amounts of hexavalent chromium. This product may contain Quartz (silicon dioxide), which is listed by IARC as a known carcinogenic to humans (Group 1). This classification is relevant when exposed to Quartz (silicon dioxide) in dust or powder form only, including cured product that is subject to sanding, grinding, cutting, or other surface preparation activities.

# 12. Ecological Information
